## Productivity: Mail Programs Page of Sonoff Consulting Services, Inc.'s Productivity and Knowledge Transfer Web Site

---

Provided here is a description of some mail programs which are regularly made use of by Scsi.

- [Back-end E-mail Applications](#)
- [Front-end E-mail Applications](#)

NOTE: Relevant hyperlinks are included within the associated paragraphs to make your browsing session productive and all the more enjoyable.

---

### "Back-end" e-mail applications

Definition: A "back end" mail processing program deals with your e-mail while still up on the Internet Service Provider's server, that is, before actual downloading operations are performed.

#### MailWasher Pro

Firetrust.com's MailWasher Pro utility created by Nick Bolton and eCOSM can be configured to intercept junk mail and viruses before they get to your inbox. Overall, Scsi finds that MailWasher Pro proves to be especially useful -- particularly since it can be used for pre-viewing, assessment of source, size, and nature of each message, and incorporates a WYSIWYG-like "prescreening" capability, deleting, and/or "bouncing" (simulating an 'addressee unknown' situation) of incoming multiple server-based e-mails, including those involving "hotmail.com-based" accounts.

If you'd like to try out the MailWasher Pro program, select the hyperlink [Free MailWasher Pro download](#) -- or if present -- the above graphic.

---

### "Front-end" e-mail applications

Definition: A "front end" mail processing program deals with your e-mail after you've completed launching of whatever e-mail program you use to access the Internet Service Provider's mail server and have completed downloading of your e-mail files onto your PC's hard drive.

#### MailBag Assistant

This is an award-winning shareware product from [Eric G.V. Fookes](#) who states, "If you're buried in e-mail, Mailbag Assistant will save you time and frustration. This e-mail organizer complements your mail program and offers powerful tools to search, sort, export, extract information, and archive your messages."

NOTE: Scsi makes use of this utility to periodically sort, classify, and save collections of e-mail messages that can be "transferred" from various e-mail programs (e.g., Eudora Pro, Outlook Express, Netscape Messenger, Pegasus Mail, Mozilla, Firefox, among others) to various sets of MailBag archive files.

### Web Page Validation and Contact Information

This Productivity: Mail Programs Page of Sonoff Consulting Services, Inc.'s Productivity and Knowledge Transfer Web Site was last updated, validated -- to assure full conformance to W3C's [XHTML 1.0 Strict](#), [CSS](#), and [WCAG Accessibility](#) (Priorities 1, 2, and 3, inclusive) recommendations -- and uploaded on Monday, June 23, 2008 at 8:25 p.m. EDT by [Raymond Sonoff](#), President of Sonoff Consulting Services, Inc., 271 Saxony Drive, Crestview Hills, KY 41017 USA: Telephone: (859) 261-5908.

Remember: If you have some questions to ask, wish to request additional information about specific topics, or want to send a request for

proposal, Scsi will always welcome your inquiries and respond promptly -- often the very same day -- to your [e-mail](#) communications. --
