IrfanView is a highly rated and popular freeware graphics file viewer and media format player available from [Irfan Skiljan's Web Site](#).

PrintFolder Pro

PrintFolder Pro is a shareware program from [No-Nonsense Software](#) that generates a directory contents listing.

Scsi feels that this utility program fills a most obvious gap in the Microsoft Windows-based operating system that everyone should know has a solution. Try it. You'll love it.

SuperCat

SuperCat is a shareware directory cataloging utility from [No-Nonsense Software](#).

This cataloging utility program builds on what the PrintFolder Pro utility does, allowing you to create an easily retrievable library catalog. If you are into getting and staying organized when it comes to your computer's files, this is the program to try out.

Task Plus

Task Plus is a low-cost version Personal Information Manager (PIM) program.

The software vendor, [Contact Plus Corporation](#), states, "The most popular single user task and calendar management program designed for simplicity and speed. Running in your system tray, Task Plus keeps track of an unlimited number of personal to-do items as well as date related appointments and more!"

WS_FTP Pro

WS FTP Pro is a mature, professional, commercial-grade File Transfer Protocol (FTP) software program from [Ipswitch](#), Inc.

Scsi considers WS FTP Pro to be a premiere state-of-the-art tool that delivers on all its promises and works like a charm every time. And, if you have access to an FTP server, WS FTP Pro will prove to be one of your favorite productivity tools for sure.

ZDNet's Freedom of Association Utility

Description: When you launch a *.txt (text extension) file, Windows loads it into Notepad, thanks to the file association feature. ZDNet's Freedom of Association program lets you manage your file associations, offering many features that Windows lacks. You can view registered extensions and the file types associated with them, clean up invalid entries, correct erroneous associations, and add extensions to existing file types. Freedom of Association was written by Neil J. Rubenking and first appeared in "PC Magazine," June 30, 1998.

NOTE: ZDNET's Freedom of Association is an "old" copyrighted freeware tool from [ZDNet](#) for modifying file extension associations. Unfortunately, this title is no longer available.

ZDNet Password Pro 32 Utility

Description: ZDNet's Password Pro 32 is a handy utility that helps you track your various passwords. Use the program to store a list of usernames, passwords, and system information, and to set expiration warnings. You can keep track of all of your passwords and print out your password list. ZDNet Password Pro can even generate random replacement passwords for you. Depending on your software, you can drag your username or password into the appropriate Windows edit box.

ZDNet's Password Pro 32 is copyrighted by [ZDNet](#). Unfortunately, this title is also no longer available.
