## Productivity: System Utilities Page of Sonoff Consulting Services, Inc.'s Productivity and Knowledge Transfer Web Site

---

Provided here are a few hyperlinks to this category of productivity tools, methods, and techniques that are regularly made use of by Scsi.

- [Symantec's Norton Internet Security Professional Edition](#)
- [Symantec's Norton System Works Professional](#)
- [TaskInfo Utility](#)

NOTE: Relevant hyperlinks are included within the associated paragraphs to make your browsing session productive and all the more enjoyable.

### Symantec's Norton Internet Security Professional Edition

As the Symantec Web site states, "Symantec's Norton Internet Security™ Professional Edition protects you and your business from online threats. This powerful suite keeps your PC safe from viruses and hackers with full versions of Norton AntiVirus™ Professional Edition and Norton™ Personal Firewall. You also get advanced utilities to safeguard your privacy and use the Internet more efficiently."

NOTE: Visit the [Symantec Web site](#) for all the details, of course, but in particular if you make use of cable- or DSL-access to the World Wide Web, this is truly a must-have commercial-grade software utility that works seamlessly to protect your computer system from hackers, viruses, and unwanted intrusions via your computer's ports!

---

### Symantec's Norton System Works Professional

As the Symantec Web site states, "Norton SystemWorks™ Professional provides advanced problem-solving solutions to maximize PC performance. It includes award-winning [Symantec](#) products and valuable additional utilities to protect your PC from viruses, optimize performance, diagnose and fix problems, recover from disasters, clean out Internet clutter, and keep dial-up Internet connections active."

NOTE: Scsi judges this product as a 'must-have' commercial software utility that will assuredly 'save the day' for you so many times that you should not be without it! In particular, you'll become convinced of this stance once you actually make use of either the "Win Doctor" or the "One Button Checkup" features to solve what otherwise might be unrecognized or seemingly unsolvable problems that you experience on a PC system. In short, you'll come to agree that this multi-faceted systems utility is truly an outstanding productivity bargain.

---

### TaskInfo Utility

Igor Arsenin's Web Site provides an indispensable tool called [TaskInfo](#). This shareware utility is ideally suited for anyone who wants to really know "what's going on" amongst all the software programs that are loaded on a PC -- including numerous details regarding the operating system, CPU's characteristics, loaded drivers and the versions of dynamically-linked library (DLL) files, remote access settings, and much, much more.

Be certain to check out this invaluable shareware program as soon as you can! You'll quickly see for yourself what power it puts

right there in front of you on the display screen.

NOTE: The voluminous details that can be (selectively!) displayed far surpasses ANYTHING ELSE tried by Scsi so far --- especially in terms of providing you with detailed, accurate, and understandable information about what happens 'under the hood' of whichever Microsoft Operating System (e.g., XP Pro, 2000 Pro, ME, etc.) that is loaded on any of your Personal Computers.
