Setting the Stage for Ubiquitous Web Access and What It Should Mean to You

Before presenting the cumulative set of graphics, Scsi wants to set the stage for you with some introductory information.

1. Scsi's Productivity and Knowledge Transfer Web Site is a [productivity-focused model](#) first-pass solution for [Ubiquitous Web Access](#) -- Here and Now -- that everyone can and should [benefit](#) from.
2. Scsi's productivity and knowledge transfer-related concepts, principles, and practices presented within this Web site are intended for visitors, prospects, customers, and other users to help them to learn about, apply, and pass along to others.

Scsi's Working Definition of Universal Web Accessibility and Web Usability

[Scsi's Working Definition of Universal Web Accessibility and Web Usability](#) -- often referred to as Ubiquitous Web Access -- is synonymous with the phrase ["World Class Level" Web Sites](#).

To reach this objective, Scsi evolved a set of Best Practices that collectively are referred to as [Scsi's "Perfect 10" Web Site Standard](#) -- a [productivity-focused model](#) intended to serve others as an architectural and design foundation for achieving [Ubiquitous Web Access](#).

The Ubiquitous Web Access House That Scsi Built

Web Standards Are The Foundation For Ubiquitous Web Access

Scsi's Productivity and Knowledge Transfer Web Site is "The house that Sonoff Consulting Services, Inc. (Scsi) built." Its design foundation is comprised of Scsi's set of ten Best Practices that every aspiring-to-be "World Class Level" Web site should strive to provide its visitors.

Much of the "who, what, where, why, when, and how" principles and their respective applications are addressed throughout this Web site's Web pages.

Scsi's Recommendation: Begin Your "Open House" Visit By Accessing Scsi's Expanded Home Page

For starters, Scsi's recommendation to anyone looking for such details is to begin by reading Scsi's [Expanded Home Page](#) and following through on any of the hyperlinked topics of interest to you at any given moment.

Put Everything Claimed To The Test

First-hand experience through performing hands-on exercises and do-it-yourself demonstrations tends to be preferred over any number of claims made by someone.

Scsi encourages everyone who visits this Web site to experience the [Six Categories of Web-centric Benefits](#) of this first-pass solution for [Ubiquitous Web Access](#) that collectively are both clearly demonstrable and testable throughout the entire sonoffconsulting.com domain.

Now! Here Comes The Promised Set of Graphics

A Picture Is Worth A Thousand Words

Granted, almost all content within the Scsi P&KT Web site is text-based, and many individuals clearly would prefer to have a storyboard of pictures to look through -- at least initially. This Graphics-based Home page is Scsi's attempt to address that preference on at least one Web page.

The remainder of this Web page focuses on providing graphical hyperlinks to the various "big picture concepts, principles, tools, and best practices" that you will find dispersed throughout Scsi's P&KT Web site.

Remember The Supporting Cast Is Text

If, for whatever reason(s), any of the cited graphics do not present themselves on your display device's screen, you can and should make use of the complementary (read: alternative selection) text-based hyperlinks provided on this graphics-based Home page to reach the associated link, be it another Web page or a standalone document, such as an untagged Portable Document Format (PDF) file with its own set of hyperlinks to select from.

Display of Graphics and/or PDF Files May Be Unsupported On Some Web Browsers

Be advised in advance that on less sophisticated devices and systems, you may not be able to view the graphics and/or the PDF files that are hyperlinked to on any given Web page within the sonoffconsulting.com domain.

Scsi's Basic Building Blocks and Web Site Architecture Diagram

Fifteen Major Categories of Scsi's P&KT Web Site

NOTES:

1. Thirteen categories have applicable [Scsi's Access Keys](#) [k].
2. Respective assigned characters are shown within square bracket symbols [] in the descriptive labels located directly below each graphic.
3. Each rectangular-shaped graphic is hyperlinked to its corresponding Web page within Scsi's P&KT Web site.

TOTAL ACCESS: Seeing the Big Picture of Scsi's Productivity and Knowledge Transfer Web Site Design

Scsi's fundamental question to any company that seeks to have a truly [World Class Level Web site](#) is this: "How many of Scsi's TOTAL ACCESS facets does your Web site's design successfully address?"

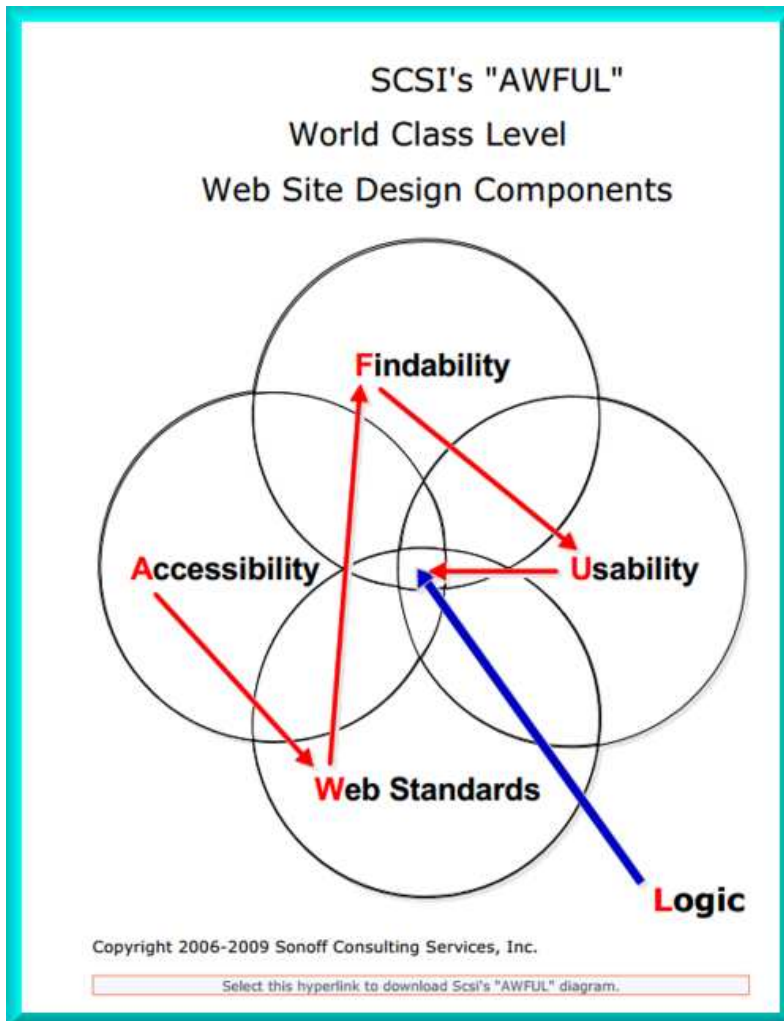

To see the overall picture of what is stated above, select this [Scsi's TOTAL ACCESS Design](#) hyperlink -- or the image located immediately below if present -- to view or download a full-page untagged PDF diagram that incorporates hyperlinks to the respective details associated with each of Scsi's TOTAL ACCESS design facets.

Details regarding each of [Scsi's TOTAL ACCESS design facets](#) are covered in Scsi's WebKISS™ Guide [#11: TOTAL ACCESS ... So What?](#).

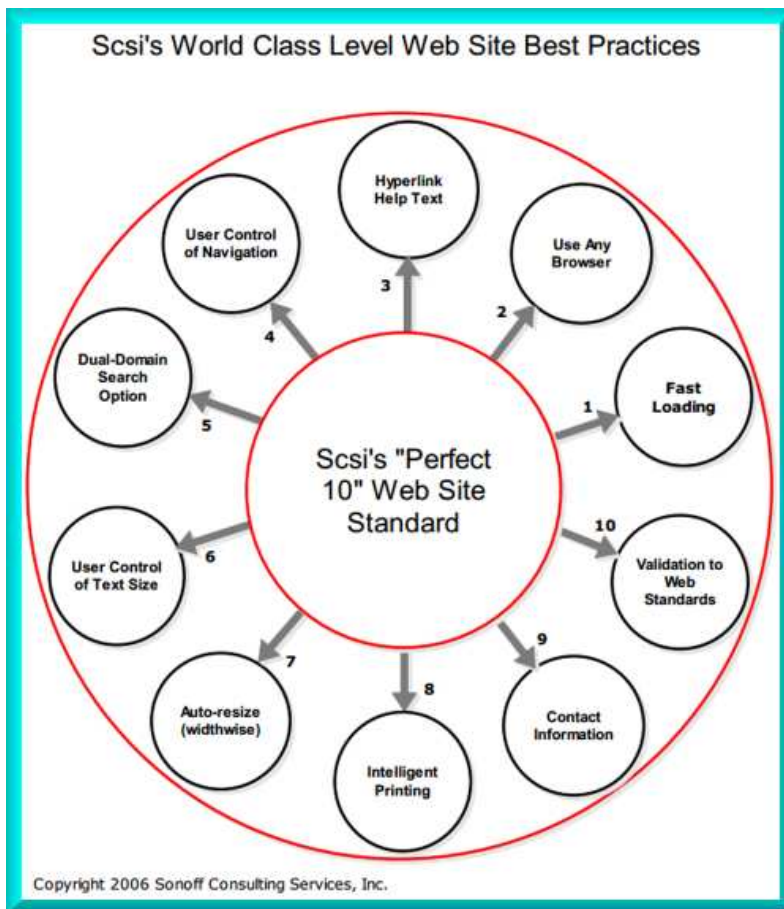

A High-Level View of Scsi's "A+W+F+U=L" Web Site Best Practices

Select this [Scsi's A+W+F+U=L World Class Level Web Site Design Components](#) hyperlink -- or the graphic located immediately below if present -- to view or download a full-page untagged PDF file that provides hyperlinks to **A**ccessibility, **W**eb standards, **F**indability, **U**sability, and **L**ogic-related Web pages.

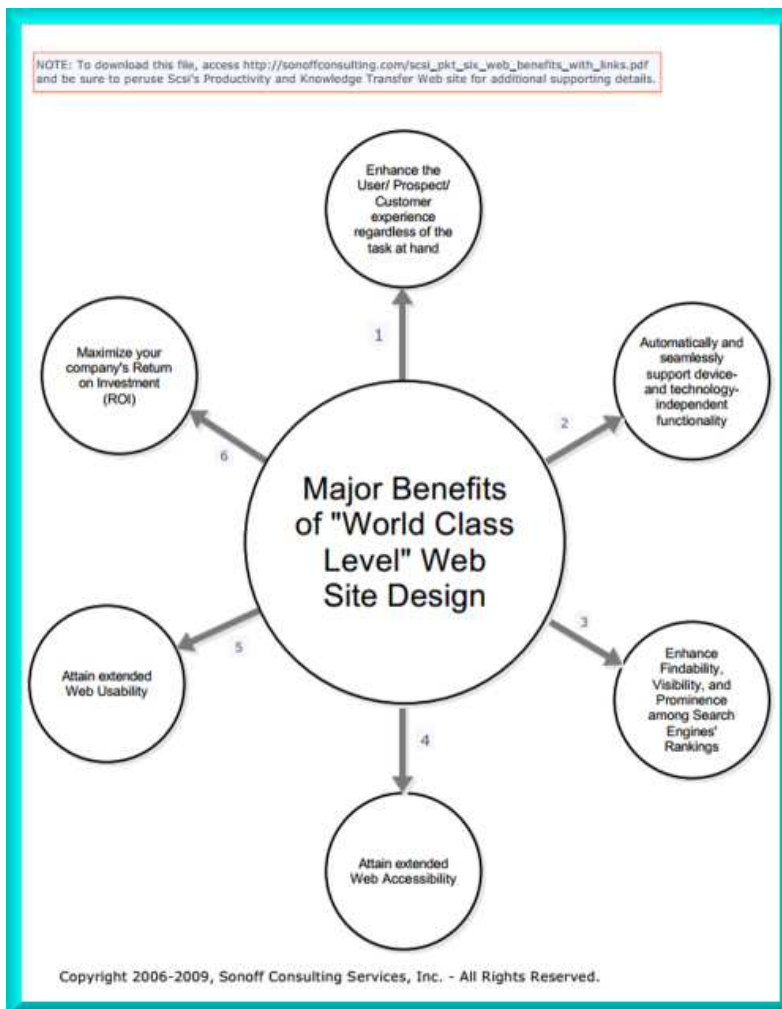

Scsi's Unique "Perfect 10" Set of World Class Level Web Site Best Practices

Select this [Scsi's top 10 Best Practices](#) hyperlink -- or the graphic located immediately below if present -- to view or download a full-page untagged PDF file that provides hyperlinks to each of Scsi's "Perfect 10" Web Site Best Practices for your convenience.

Six Categories of Web-centric Benefits

To quickly find out what some specific Web-centric benefits are that can readily be appreciated by anyone, select this [Major Benefits of "World Class Level" Web Site Design](#) hyperlink -- or the graphic located immediately below if present -- to launch the untagged PDF file with its respective hyperlinks to choose from.

Major Benefits of "World Class Level" Web Site Design

1. [Enhance the User / Prospect / Customer experience regardless of the task at hand](#)
2. [Automatically and seamlessly support device-and technology-independent functionality](#)
3. [Enhance Findability, Visibility, and Prominence among Search Engines' Rankings](#)
4. [Attain extended Web Accessibility](#)
5. [Attain extended Web Usability](#)
6. [Maximize your company's Return-On-Investment \(ROI\)](#)

Quantitatively score any Web site's page(s) -- by making effective use of Scsi's Test Criteria Evaluation Worksheet (STCEW) Tool

Select this [STCEW Tool](#) hyperlink -- or the graphic located immediately below if present -- to [quantitatively score](#) any Web page on any Web site of your choosing.

STCEW Tool Scoring Results and Comments Enter a Tracking ID # for this particular STCEW Tool-based Evaluation: _____

[Scsi's Test Criteria Evaluation Worksheet \(STCEW\) Tool -- Results and Comments](#) Need [help](#)? Call (859) 261-5908 for [professional assistance](#).
[Ten Features Every Web Site Should Always Provide its Visitors](#) For more details, visit Scsi's P&KT Web Site at <http://sonoffconsulting.com/>

Scsi's Web Site Best Practices for Usability and Accessibility http:// _____	Pass? Y or N	Specific comments associated with the corresponding Best Practice evaluation test results can be entered in the areas below.
1. Every Web page is fast loading .		
2. Every Web page is viewable with any type of browser .		
3. Every Web page incorporates meaningful, descriptive 'balloon help' text for every hyperlink (both text- and graphics-based).		
4. Every Web page's navigation always remains under user control, thereby allowing use of any combination of keyboard, mouse, or other pointing devices as hyperlink selection tools.		
5. Every Web page incorporates an integral and effective dual-domain search window.		
6. Every Web page's text viewing size selections remain under user control at all times -- according to the particular browser tool's available selections.		
7. Every Web page's contents will always automatically resize widthwise to fill the entire browser window -- no matter what screen resolution settings or window sizes are in effect at any time.		
8. Every 'Print this page' operation automatically results in an intelligently word-wrapped, truncation-free, black-on-white printout of that Web page's main body contents -- regardless of the page orientation and user-specified text size selection in effect at that time.		
9. Every Web page incorporates readily accessible contact information.		
10. Every Web page validates against the World Wide Web Consortium (W3C) specifications for Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), and Web Accessibility Initiative (WAI) Content Guidelines (WCAG).		
Resulting Best Practices score for this Web page (based upon an "N" equating to 0 points), tally up the number of "Y" entries is:		
Keep In Mind: Every one of Scsi's Web pages scores 100.		

Access and download this file at <http://sonoffconsulting.com/scsi-pkt-stcew-tool-scoring-results-and-comments-to-fill-in.pdf> on Scsi's P&KT Web site.

What will you quickly discern for yourself when you make use of the STCEW Tool?

The STCEW Tool is really an easy-to-use checklist, straightforward to understand, and anyone can use it to check for the presence or absence of [List of Scsi's Web Site Best Practices](#) on any Web site's pages.

With this document as a reference you can methodically proceed to [quantitatively score](#) any page -- on any Web site -- you so choose to evaluate.

Once you've completed an STCEW Tool-based evaluation, you should then be able to draw your own conclusions as to the degree of conformance -- for that specific Web page -- to [Scsi's "Perfect 10" Set of "World Class Level" Web Site Best Practices](#).

Perform an STCEW Evaluation of any Web page of your choosing

Now, try this methodology for yourself -- for real. **Below is a step-by-step procedure for how to proceed.**

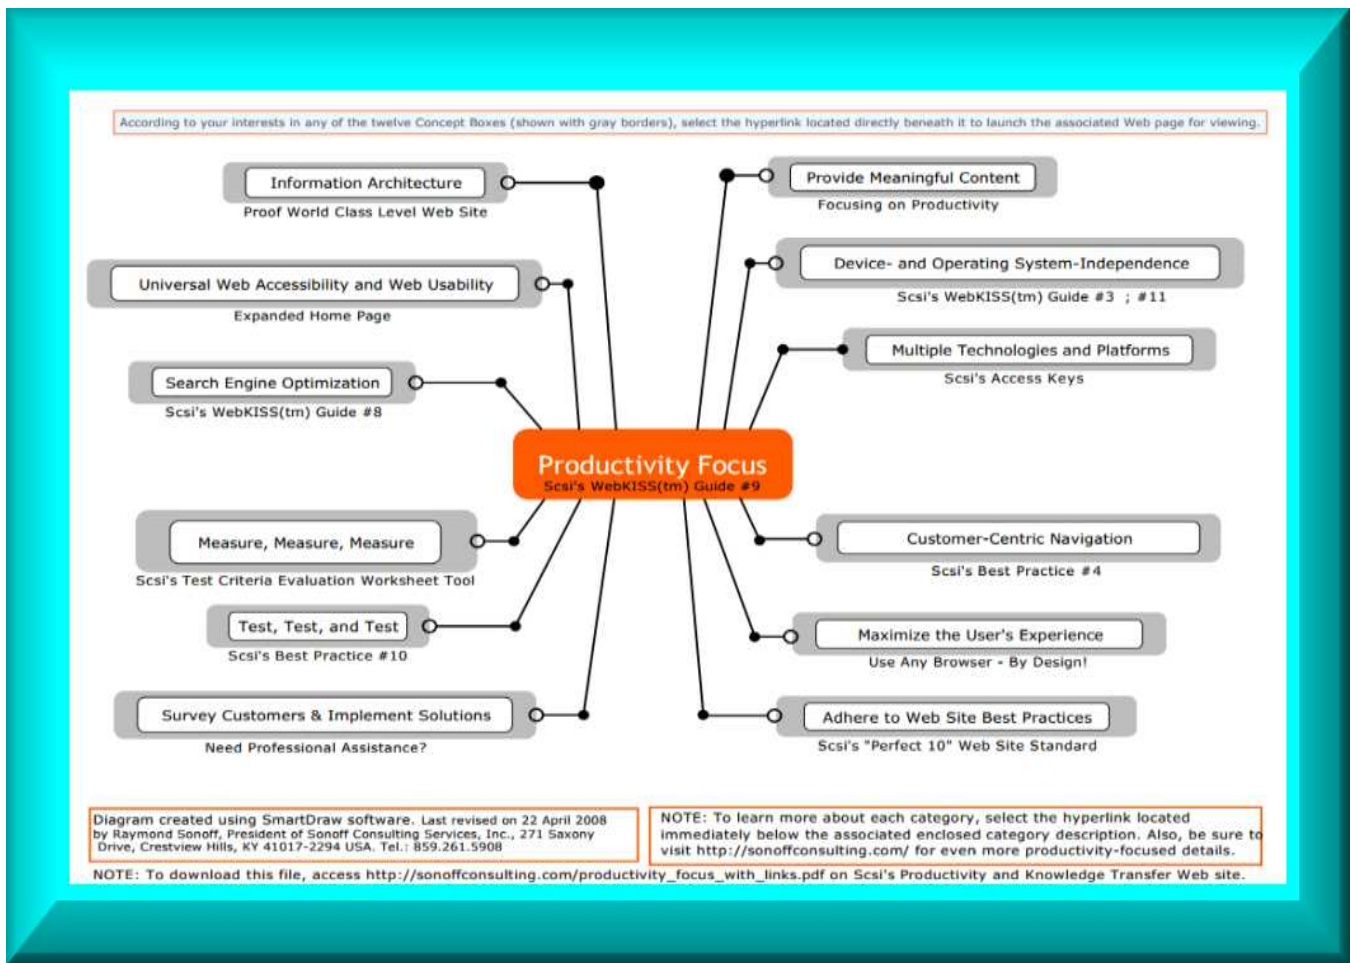

With the STCEW Tool either displayed or printed out and in front of you, do the following:

1. Access a Web site page to examine for assessment for each of Scsi's ten Web Site Best Practices.
2. For each of the ten Web Site Best Practices listed, enter either a Y (for Yes) or an N (for No) as answers -- based on what you have learned should occur with the Scsi P&KT Web Site as your model reference.
3. Tally up the number of "Yes" entries and multiply that number by 10 to get the Web Site Best Practices score for that particular Web page.
4. Refer to the legend for scoring and enter the resulting number on the Worksheet box reserved for that entry.
5. Assess the grade for that Web page based on the cumulative score, namely: Perfect (100), Excellent (90), Good (70 or 80), Fair (50 or 60), Poor (30 or 40), Abysmal (10 or 20), and Total Failure (a zero).
6. Repeat the prior steps for any other Web page(s) that you want to quantitatively assess.

That's how really easy it should be for you perform this evaluation process.

Scsi's Productivity-focused Diagram

To see the overall picture of what Scsi considers to be the major categories that comprise a Web site that is productivity focused, select the image immediately below -- if present -- to [view Scsi's Productivity Focus diagram](#) as an untagged PDF file that contains numerous relevant hyperlinks that augment [Scsi's Takeaway Checklist](#).

Best Viewed with Any Browser

If you'd like to learn more about the "View with Any Browser Campaign" program itself, select the Best Viewed With Any Browser graphic -- located immediately below if present -- to access supporting details behind the [Viewable with Any Browser concept](#).

Examples of Publicly-accessible Web Page Validation Tools

World Wide Web Consortium (W3C) and Web Accessibility Initiative (WAI) Validation Guidelines

Provided below are the applicable -- and selectable -- W3C and WAI validation logos and respective hyperlinks that are conformed to by Scsi throughout the entire Scsi P&KT Web site:

Select either the graphic -- if displayed here -- or the following hyperlink to specify any Web page's Uniform Resource Locator (URL) address for [W3C HTML markup validation testing](#).

Select either the graphic -- if displayed here -- or the following hyperlink to specify any Web page's associated Cascading Style Sheet (CSS3) for [W3C-based Cascading Style Sheet \(CSS3\) validation testing](#).

Select either the graphic -- if displayed here -- or the following hyperlink to display AChecker's[©] Portal [WCAG Accessibility](#) Web page. Once that page is displayed, specify any particular Web page that you choose to test for compliance to either [Section 508](#) or Web Content Accessibility Guidelines ([WCAG](#)) recommendations.
