**PLAY
INTERVIEW**

Ready to act? Call **(859) 261-5908** to immediately reach [Raymond Sonoff](#), President of [Sonoff Consulting Services, Inc.](#), [271 Saxony Drive, Crestview Hills, KY 41017-2294](#) USA. ... or send an [e-mail](#) message to "info AT sonoffconsulting DOT com" to get answers to your specific questions, or make immediate use of Scsi's [Contact Form 1](#) Web page, and fill out the form's fields citing whatever you want addressed by Scsi.

Scsi's "Perfect 10" Set of "World Class Level" Web Site Best Practices

1. [Listing of Scsi's "Perfect 10" Set of Web Site Best Practices](#)
2. [What does the presence of all these Web Site Best Practices really mean from a practical perspective?](#)
3. [Keeping the Focus on Customer-centric Benefits is the Goal of Scsi's Web Site Best Practices.](#)
4. [Scsi makes Web page assessments as easy as filling in a single-page document \(on- or off-line\).](#)

NOTE: Relevant hyperlinks are included within the associated paragraphs to make your browsing session productive and all the more enjoyable.

Listing of Scsi's "Perfect 10" Set of Web Site Best Practices

1. [Web Best Practice #1](#): Every Web page is [fast loading](#).
2. [Web Best Practice #2](#): Every Web page is [viewable with any type of browser](#).
3. [Web Best Practice #3](#): Every Web page incorporates meaningful, descriptive 'balloon help' text for every hyperlink (both text- and graphics-based).
4. [Web Best Practice #4](#): Every Web page's navigation always remains under user control, thereby allowing use of any combination of keyboard, mouse, or other pointing devices as hyperlink selection tools.
5. [Web Best Practice #5](#): Every Web page incorporates an integral and effective dual-domain search window.
6. [Web Best Practice #6](#): Every Web page's text viewing size selections remain under user control at all times -- according to the particular browser tool's available selections.
7. [Web Best Practice #7](#): Every Web page's contents will always automatically resize widthwise to fill the entire browser window -- no matter what screen resolution settings or window sizes are in effect at any time.
8. [Web Best Practice #8](#): Every 'Print this page' operation automatically results in an intelligently word wrapped, truncation-free, black-on-white printout of that Web page's main body contents -- regardless of the page orientation and user-specified text size selection in effect at that time.

9. [Web Best Practice #9](#): Every Web page incorporates readily accessible contact information.
10. [Web Best Practice #10](#): Every Web page [validates](#) against the World Wide Web Consortium (W3C) specifications for Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), and Web Accessibility Initiative (WAI) Content Guidelines (WCAG).

What does the presence of all these Web Site Best Practices really mean from a practical perspective?

Have it all ... [Ubiquitous Web Access](#) ... here and now on Scsi's P&KT Web Site

Think about it ... You can have it all -- here at the Scsi P&KT Web site. For, as you will discover for yourself, each and every one of [Scsi's Web Site Best Practices](#) for a [World Class Level Web site](#) is adhered to throughout the entire Scsi P&KT Web site.

Possibly, based on the usual Web site experiences we regularly encounter, the collective set of Web Site Best Practices listed above may be judged by most readers to be unreachable -- or at the very least unexperienced before you came to the Scsi P&KT Web site. Ah, but yes, convincing you that all that Scsi has stated above is absolutely true is the [challenge](#) to be met, now isn't it -- to overcome such obstacles and get on with the business at hand, right? Having said this, of course, it seems that there will always be naysayers whenever someone claims to have made a noteworthy breakthrough in any field of endeavor. That's also expected, isn't it?

Confirm all ten Web Site Best Practices are present for any Web page in the [sonoffconsulting.com](#) domain

Nonetheless, you can and will be able to prove for yourself that each and every one of these claims has been fully met. How? By actually putting everything claimed above to the test right here on the Scsi P&KT Web site -- using Scsi's Test Criteria Evaluation Worksheet (STCEW) Tool as described below, you will soon realize that all of these Web Site Best Practices have in fact been achieved and that Y-O-U are the true benefactor. Isn't that what the Internet is supposed to be all about?

Keeping the Focus on Customer-centric Benefits is the Goal of Scsi's Web Site Best Practices.

The collective set of [Scsi's Web Site Best Practices](#): is built on a foundation of [conformance to World Wide Web Consortium \(W3C\) standards](#). However, as you will see, the Web Site Best Practices themselves need not be thought of as being listed in any rigid sequential or highest-to-lowest priority order. Rather, Scsi suggests that you view these Web Site Best Practices as significant contributors toward [achieving a Web site design that remains focused on serving its visitors effectively](#).

When and if any particular Best Practice catches your attention more than another, you might decide to examine the related details by selecting the corresponding hyperlink for the Best Practice of interest at that moment. Upon doing so, you will more readily be able to "read, mark and inwardly digest" (ala, Francis Bacon) -- what has been achieved -- all by design -- and provided throughout the [sonoffconsulting.com](#) domain as [customer-centric benefits for everyone to enjoy](#).

Scsi makes Web page assessments as easy as filling in a single-page document (on- or off-line).**Use Scsi's STCEW Tool as your basic reference**

For your convenience, Scsi provides an easy-to-understand and easy-to-use Test Criteria Evaluation Worksheet to use as a working tool that will make the task of reinforcing your understanding and appreciation of what was just described above straightforward -- as well as transferable to others either in hardcopy or softcopy format.

How and what is involved to accomplish all this? Don't worry. You will learn by doing. When and if you make use of [Scsi's Test Criteria Evaluation Worksheet Tool \(STCEW\)](#) described and hyperlinked to in [Part 3](#), this will become something that you will want to pass along to others to learn.

Want a quick look at the STCEW Tool's Checklist?**Background Information**

Keep in mind that Scsi is always seeking to help you increase both your personal and corporate productivity -- through learning-by-doing exercises while visiting the Scsi P&KT Web site.

In a Hurry? Make use of Scsi's Test Criteria Evaluation Worksheet (STCEW) Tool -- see graphic provided below -- for assessing any Web page's Degree of Conformance to Scsi's Perfect 10" Set of "World Class Level" Web Site Best Practices.

To quickly find out what seamlessly integrated and clearly demonstrable benefits are claimed for each and every Web page, take a moment now to read more about [Scsi's Test Criteria Evaluation](#)

[Worksheet \(STCEW\) Tool](#) -- especially by using Scsi's convenient one-pager worksheet file:

With this document as a reference you can methodically proceed to [quantitatively score](#) any page -- on any Web site -- you so choose to evaluate.

Once you've completed an STCEW Tool-based evaluation, you should then be able to draw your own conclusions as to the degree of conformance -- for that specific Web page -- to [Scsi's "Perfect 10" Set of "World Class Level" Web Site Best Practices](#).

Perform an STCEW Evaluation of any Web page of your choosing

Now, try this methodology for yourself -- for real. Below is a step-by-step procedure for how to proceed.

With the STCEW Tool either displayed or printed out and in front of you, do the following:

1. Access a Web site page to examine for assessment for each of Scsi's ten Web Site Best Practices.
2. For each of the ten Web Site Best Practices listed, enter either a Y (for Yes) or an N (for No) as answers -- based on what you have learned should occur with the Scsi P&KT Web Site as your model reference.
3. Tally up the number of "Yes" entries and multiply that number by 10 to get the Web Site Best Practices score for that particular Web page.
4. Refer to the legend for scoring and enter the resulting number on the Worksheet box reserved for that entry.
5. Assess the grade for that Web page based on the cumulative score, namely: **Perfect** (100), **Excellent** (90), **Good** (70 or 80), **Fair** (50 or 60), **Poor** (30 or 40), **Abysmal** (10 or 20), and **Total Failure** (a zero).
6. Repeat the prior steps for any other Web page(s) that you want to quantitatively assess.

That's how really easy it should be for you perform this evaluation process.

What will you quickly discern for yourself when you make use of the STCEW Tool?

The STCEW Tool is really an easy-to-use checklist, straightforward to understand, and anyone can use it to check for the presence or absence of [Scsi's Web Site Best Practices](#) on any Web site's pages.

What should you do to get other Web sites to fix their Web site's problems?

Let Web Sites know where they need improvement

As you gain experience in applying Scsi's Web Site Best Practices checklist -- refer to [Scsi's Test Criteria Evaluation Worksheet \(STCEW\) Tool](#) for details -- for performing degree-of-conformance assessments, you will come to more fully recognize which of [Scsi's Web Site Best Practices](#) are overlooked entirely by the vast majority of today's currently designed and implemented Web sites.

Provide specific assessments to prove your point

With quantitative assessments in hand that confirm specific Web pages as needing improvements you will definitely play an influential role by actually pointing out specific areas where improving the quality of any given Web site should be focused.

In fact, Scsi encourages you to provide copies of your STCEW checklist results to those Web sites' personnel. For by taking this action step, you will clearly indicate to those individuals that you truly do know exactly where they are currently "missing the boat" in terms of maximizing the visitor/customer/prospect/user Web experience.

If the Web site personnel are even a bit smart, they will listen to you, implement those needed changes for everyone's benefit, and you can take full credit -- once they do come through with the promised changes -- that you brought this matter to their attention.
