### Major Headings for the Site Map Page of Sonoff Consulting Services, Inc.'s Productivity and Knowledge Transfer Web Site

All of the major headings associated with the entire Scsi P&KT Web site are provided on this Site Map page.

The two headings included immediately below for this Web page provide some measure of orientation as to how this Site Map is organized:

- [Scsi P&KT Site Map's Purpose](#)
- [Detailed Roadmap Representation](#) of the major topics and headings to be found within the entire Scsi P&KT Web Site's Pages

NOTE: Relevant hyperlinks are included within the associated paragraphs to make your browsing session productive and all the more enjoyable.

---

#### Scsi P&KT Site Map's Purpose

This site map Web page is provided to assist you in quickly locating and selecting any hyperlinked main heading or subheading located on the corresponding Web page within the overall Scsi P&KT Web Site.

#### Site Map-based Navigation

- Scroll down through this Site Map Web page to examine an expanded view of hyperlinked major headings -- and the subheadings in most cases as well -- for all of the Scsi P&KT Web site's pages.
- Whenever you wish to do so, select a topic of interest's associated hyperlink to go to the corresponding Web page's heading or subheading for that particular Web page.

#### Search Window-based Alternative Navigation

As a search-based alternative to making such hyperlink selections within this Site Map Web page, you can always -- at any time and on any Web page within this Web site -- perform "search-by-keyword" operations instead:

- Just enter either a word or phrase within the Google engine-based Search window that is consistently positioned near the TOP of every Scsi P&KT Web page, including the on-line [Profile](#) page.
- If you specifically want to have the search results restricted to the Scsi P&KT Web site, make sure that the Search window's Scsi P&KT radio button is currently selected -- which is the default situation unless you've changed it upon accessing this Site Map Web page. Otherwise, the search results you obtain will encompass the entire Internet domain.

---

#### Detailed Roadmap Representation -- Major topics to be found within the entire Scsi P&KT Web Site's Pages

Rather than make use of either of the above-stated navigation methods, you may prefer using a "drill down to the details" approach -- where you can immediately see everything listed in a linear manner by major topic per Web page. In that way, you can look through the entire set of listed hyperlinks -- much as you would skim through the index or table of contents of a professional reference book for exactly what you want to know more about -- and then simply select the hyperlink of current top-most interest to get there on this Web site. If so, then use the remainder of this Web

page as your detailed roadmap to any Web page of interest and as a shortcut means to immediately jump to any major heading associated with any listed Web page.

In short, from a [productivity-focused](#) viewpoint, you can now make effective use of the Scsi P&KT Web Site Map as a valuable, timesaving "Table of Contents" and/or as a comprehensive "Index" of all major topics presented, where they are located, and how they are made easily reachable by a straightforward hyperlink selection from this very Site Map Web page. Pretty cool, huh? Be sure to enjoy this innovative "read or skim as you so please" approach to productively navigating throughout the entire Scsi P&KT Web site.

The following set of hyperlinks should serve you as a handy index to specific Web pages and their associated main topics. Enjoy the tour.
